Powerful and Elegance Meets the POS Demands of Today.

In today's ever changing POS environment, businesses are demanding more from their POS systems. From customer relationship management to self service and everything in between, the demand for POS capabilities is higher than ever. Today's environment also brings about something else, a more price conscious business owner.

Partner Tech, being your true Partner in POS, developed the new compact and powerful 2.4G Intel® Bay Trail-D J1900 SP-850 with multi touch to meet both of these trends: increased power and cost effectiveness.

SP-850 is a fanless, compact, high-performance system, fitted with a quad-core Bay Trail platform and equipped with scratch-proof projected capacitive touch screen, Housed in a beautiful and elegant aluminum body, the SP-850 provides the system performance and reliability that Partner Tech products have become known for. Inside the SP-850 is an energy efficient low power consumption Bay Trail CPU, providing the necessary power to run today's power hungry POS applications. Staying true to Partner Tech tradition, the SP-850 comes with a wide range of easily connected modules, including a RFID reader, IC card reader, MSR, finger print reader, and 2nd display options. With its convenient wall mount option and wide tilt angle, the list simply goes on and on!
